March 25, 2020

UPDATE: Unico’s Response to COVID-19:

On Tuesday, March 24, 2020, Wisconsin Governor Evers issued an order requiring all nonessential businesses in the State of Wisconsin to close their physical locations to help slow the spread of COVID-19.

Unico, as a supplier of products supplying essential Transportation, Petroleum and Fuel, Paper Converting and Steel Product applications, consulted guidance provided by the Wisconsin Department of Health Services and U.S. Department of Homeland Security to protect essential industries, and are continuing our manufacturing capabilities.

As a result, Unico is currently open for business. We are continuing with measures, including work-from home where reasonably practical, implemented to safeguard our employees while maintaining business continuity and to secure materials and keep the supply chain for essential businesses intact. We are committed to providing continued responsiveness, support, technical service and production capabilities to meet our customer’s needs.

We ask for our customer’s patience during this difficult time and assure all that we will do our best to communicate any delivery delays.

The well-being of all our people is of utmost importance to us, as well as minimal disruption in our service to you. We thank you for your continued support as we all work together through the challenges of this crisis.

Sincerely,

Mo Morrone, CEO
Unico, LLC
